Career Expertise

Senior Software Developer

Tic Technologies & Solutions | Kottayam

12/2025 - 06/2026

- ▶ Designed and developed scalable mobile and web applications using **Flutter, Laravel, PHP, CodeIgniter, Angular and React**.
- ▶ Built and integrated **RESTful APIs**, payment gateways, Firebase services, and third-party APIs.
- ▶ Developed responsive and user-friendly applications following **Material Design** principles.
- ▶ Optimized application performance, reducing loading times and improving overall user experience.
- ▶ Collaborated with cross-functional teams to gather requirements, design solutions, and deliver projects on schedule.
- ▶ Managed application deployment, maintenance, bug fixing, and feature enhancements.
- ▶ Participated in code reviews, technical documentation, and mentoring junior developers.
- ▶ Delivered multiple production-ready applications for clients across different business domains.
- ▶ Managed application deployment and hosting using **Jenkins CI/CD, AWS, and cPanel**, ensuring reliable releases, server maintenance, application monitoring, and high system availability.

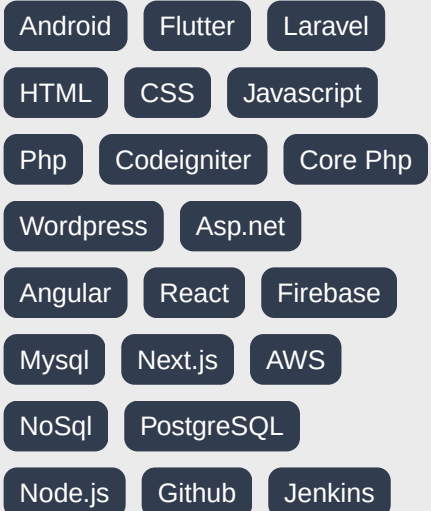

Software Developer

M.G University | Athirampuzha, Kottayam

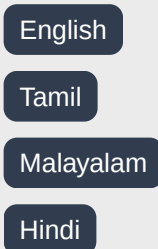

01, 2023 - 07/2025

- ▶ Developed and maintained web applications using **PHP, Laravel, CodeIgniter, Angular and React** for university administrative systems.
- ▶ Designed and developed Android applications using **Java, XML, and Flutter** to support academic and administrative processes.
- ▶ Built and integrated **RESTful APIs** for seamless communication between frontend and backend systems.
- ▶ Managed **MySQL** databases, optimized SQL queries, and ensured data integrity and security.
- ▶ Implemented new features, resolved production issues, and improved application performance based on user feedback.
- ▶ Collaborated with university departments to gather requirements and deliver customized software solutions.
- ▶ Maintained source code using Git and followed software development best practices.
- ▶ Performed software testing, debugging, deployment, and ongoing maintenance to ensure reliable system performance.
- ▶ Managed application deployment and hosting using **Jenkins CI/CD, AWS, and cPanel**, ensuring reliable releases, server maintenance, application monitoring, and high system availability.
